

Free-Flowable Packaging and Cushioning Dispensers

- SIMPLE MECHANICAL OPERATION
- GRAVITY FREE FLOW
- LABOR SAVING
- HIGHLY EFFICIENT

Established 1947

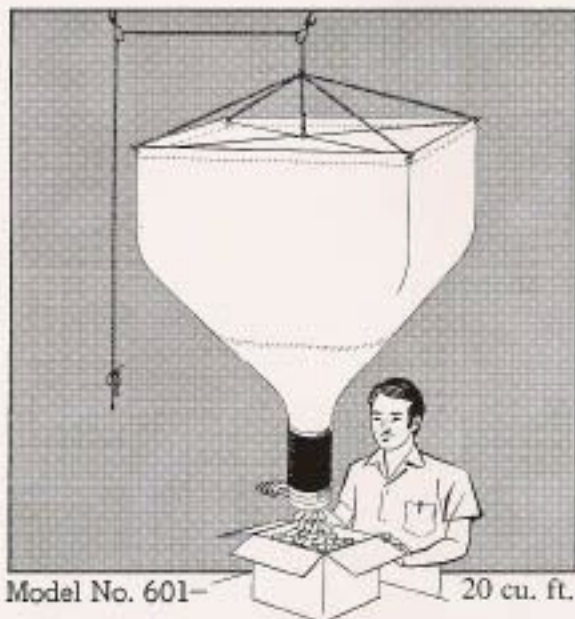

THE MODERN AND ONLY WAY TO PACK

Dispenser for free-flowable dunnage or cushioning material made from expanded polystyrene.

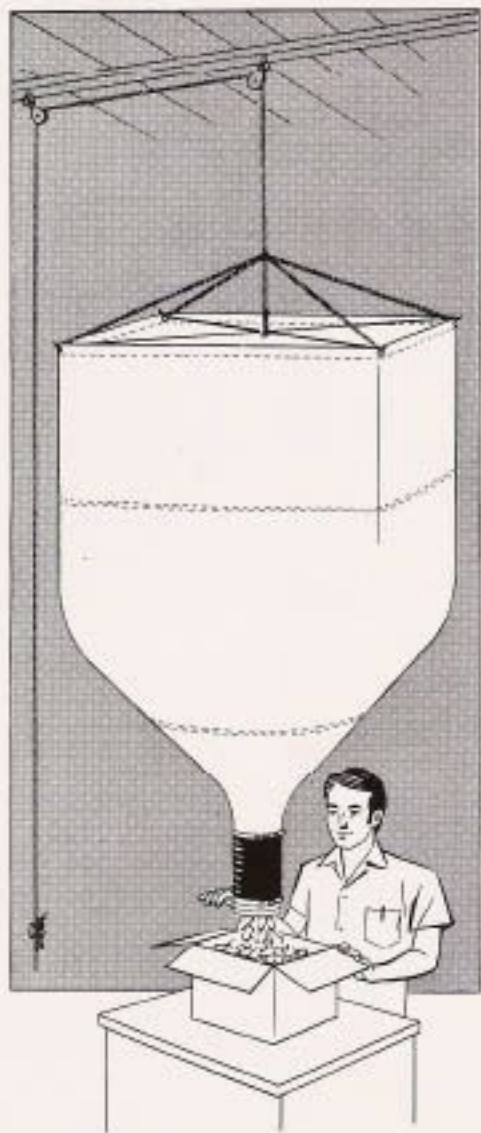

GRAVITY FEED FLOWABLE DISPENSER will speed up your operation with no waste.

From a trickle to a torrent by simple finger pressure on the positive response spring loaded SCISSORS VALVE.

Using hand scoops or pouring directly from your material container, whether bags or boxes, is doing it the hard way, the SLOW way and the messy way.

Model No. 601— 20 cu. ft.

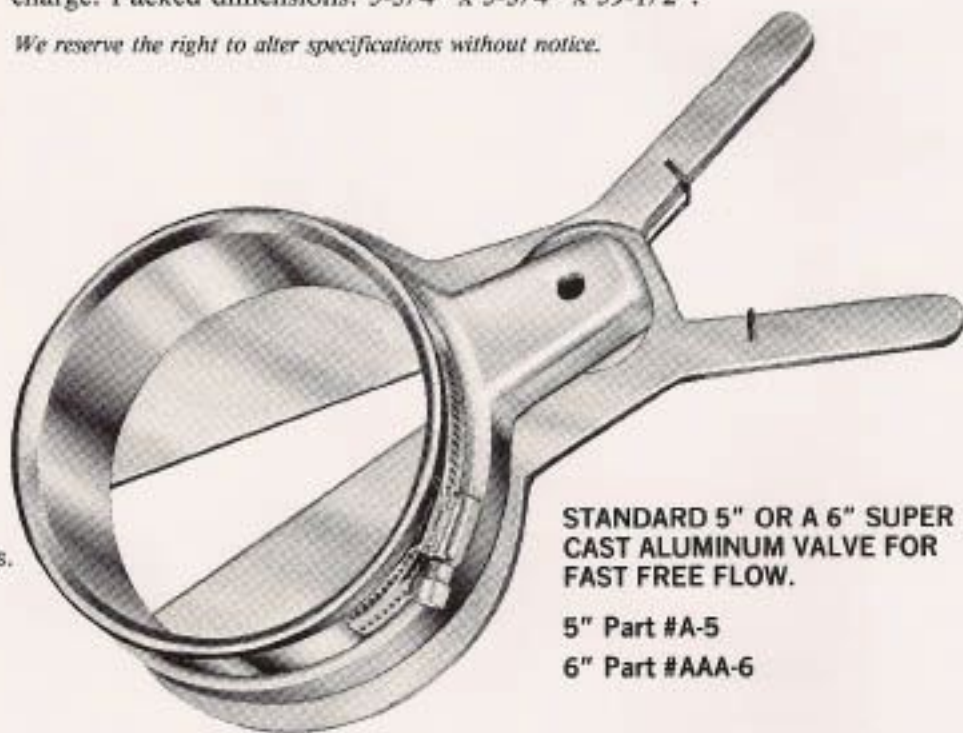

Model No. 747 - 40 cu. ft. Top of chain to bottom of valve, 92". Also available with 15, 60 and 80 cu. ft. bags.

NEW heavy-duty device that will handle any manufacturer's loose-fill or free-flowing dunnage or cushioning materials made from expanded polystyrene. Our NEWEST GRAVITY FEED FLOWABLE DISPENSERS will speed up your operation with no waste. Neatly controlled, efficient, handy and out of the way for ease of packaging.

Harness gravity for speed and operator-convenience, while at the same time using space above your packing floor or station for storage (40 cubic feet), as well as dispensing right at the point of use. The following models 707, 601, 747, 060 and 080 have heavy-duty rot-proofed duck bag, 5" or 6" diameter flexaust wire reinforced flexible tubing, 18 feet of 1/4" rope and 2 pulleys. Precision lifetime cast aluminum and machined scissors valve, 5" or 6" diameter. Bag dimensions: 40" x 40" at top. Tubing length: 12". Extra 5" or 6" flexible tubing, available at an additional charge. Packed dimensions: 5-3/4" x 5-3/4" x 59-1/2".
