### KEEP AN EARFUL WITHIN EASY REACH.

With PlugStation, you can afford to put earplugs in all the places they're needed. PlugStations increase compliance, because they're clearly visible. So you won't waste time looking for earplugs.

### FROM DISPENSER TO YOUR HAND.

With the PlugStation, earplugs drop right into the palm of your hand. So you don't have to worry about earplugs falling on the floor, or trays collecting dust and contaminants, because the chute is positioned right in the front of the turn handle.

### SEALED AND DISPOSABLE FOR HYGIENE.

When plugs are used up just pitch the used and dirty dispenser in the recycle bin. Replace with a fresh, clean PlugStation.

### INDEPENDENTLY TESTED PROTECTION.

Another benefit of PlugStation is that SparkPlugs (NRR 33), Pura-Fit (NRR 33), Goin' Green (NRR 33), Traffic Cones (NRR 23), Pura-Cones (NRR 29) and Camo Plugs (NRR 33) earplugs have been Independently tested in accordance with ANSI S3.19-1974 by Michael & Assoc., Inc., State College, PA., non-manufacturer owned lab, Moldex's NRR 33 earplugs are the highest independently rated earplugs.

### ! WARNING

Use this laboratory-derived attenuation data for comparison purposes only. The amount of protection afforded in field use often is significantly lower depending on how the protectors are fitted and worn.

Failure to follow all instructions could result in hearing loss or injury.

Failure to obtain a proper fit will reduce effectiveness of hearing protectors and could result in hearing loss or injury.

SparkPlugs, Pura-Fit, Goin' Green, Traffic Cones, Pura-Cones, and Camo Plugs must only be used as part of a hearing conservation program that complies with applicable local safety and health regulations.

Overprotection can be dangerous. The wearer must be able to hear warning signals.

Wearers with hearing loss should exercise extreme caution.

It is the employer's responsibility to ensure that the type of hearing protector and its NRR is appropriate for the user in their particular workplace.

Failure to follow these warnings could result in serious injury or death.
